ESTABLISHED 1790

CHEMISTS AND PERFUMERS

Dr. Harris & Co. was established in 1790 by Henry Harris, a surgeon, and Daniel Rotely Harris, a pharmaceutical chemist, at No. 11 St. James's Street in London. The founders combined their medical and pharmaceutical expertise to create a range of products including perfumes, lotions, and remedies tailored for the gentry and the court. Over time, the brand became renowned for its Lavender Water, Classic Cologne, and English Flower perfumes

ABOUT THE COLLECTION

Introducing the D.R. Harris Cucumber & Roses Body Care Range, a timeless fragrance that delicately balances the elegance of the past with the freshness of today. A signature blend rooted in over a century of apothecary tradition, Cucumber & Roses has long embodied the refined sophistication of the D.R. Harris legacy. Crisp cucumber, known for its cooling and revitalizing properties, is harmoniously entwined with the gentle sweetness of rose petals, creating a fragrance that is both invigorating and soothing.

As one of the most storied formulations in British body care, this collection continues to reflect the heritage and expertise of D.R. Harris, perfect for those who seek modern refinement while embracing an authentic connection to history.

AROMATIC LAYERS:

Top Notes:

The fragrance opens with the clean, refreshing scent of **cucumber**, evoking a crisp and cool sensation. **Green leaves** add a subtle, dewy quality, enhancing the natural, airy brightness and lifting the opening with a soft verdancy.

Heart Notes:

At its heart, the soft elegance of **rose petals** takes center stage, offering a velvety and graceful floral tone. This is delicately balanced by **lily of the valley**, which adds a light, sweet touch, supporting the rose with a gentle freshness that intertwines with the cool cucumber.

Base Notes:

The base is anchored by the soft, powdery presence of **white musk**, which smooths the fragrance into a lasting, clean finish. **Sandalwood** introduces a subtle creamy warmth, adding depth and texture without overpowering the light, fresh elements of the composition.

This olfactive evolution mirrors the refined tradition of **D.R. Harris**, a brand deeply rooted in apothecary heritage. The blend of cucumber's modern freshness with the timeless sophistication of roses reflects the brand's dedication to marrying heritage with contemporary notes. Each layer of the fragrance transitions seamlessly, embodying D.R. Harris's commitment to subtle, yet distinguished luxury.
